Changes to Year-End Reporting

The following changes applies to year-end reports for the fiscal year ending June 30, 2003:

- Starting this year, only preprinted forms for Report No. 1 (Report of Accruals to Controller's Accounts) and Report No. 3 (Adjustments to Controller's Accounts) will be mailed to agencies. Additional blank forms are available on the Internet at www.sco.ca.gov/ard/state/index.shtml
- For all agencies, the unencumbered amount of the Due from Other Funds (GL 1410.XXXX) must equal the related unencumbered amount of the Due to Other Funds (GL 3114.XXXX). Agencies need to coordinate related amounts reported to ensure they equal. The Generally Accepted Accounting Principles (GAAP) Section of the Controller's Office will be reconciling the Due from Other Funds (GL 1410.XXXX) and Due to Other Funds (3114.XXXX) this year.
- The Fund Balance of a fund is the excess of the assets over its liabilities. Normally, the ending fund balance should be a positive amount. Funds reporting a negative fund balance must provide a footnote on the Post-Closing Trial Balance (Report No. 8) explaining the negative (deficit) fund balance.

Budgetary/Legal Basis Fund Groups

Governmental Cost Funds

On the budgetary/legal basis, there are two main fund groups: Governmental Cost Funds and Nongovernmental Cost Funds.

Governmental Cost Funds consist of those funds that receive revenues derived from taxes, licenses, and fees. Expenditures of these funds represent the cost of government. There are two major fund classifications in this group: the General Fund and Special Funds. The purpose of each fund classification is described below:

The *General Fund* is the main operating fund of the State consisting of moneys that are not required by law to be deposited in any other fund.

Special Funds are used to account for resources that are legally restricted for particular functions or activities of government. The following are classified as special funds:

- General Fund Special Accounts are legislatively created accounts within the General Fund to account for revenues that are restricted by law for specific purposes. The accounts are treated as special funds and are excluded from the General Fund for accounting and budgetary purposes.
- Feeder Funds are the depositories for the collection of major taxes prior to clearance to the General Fund. The resources and obligations of these funds that apply to the General Fund as of June 30 are included in Due from Other Funds. Resources and obligations remaining in any of these funds represent collections that were not available to the General Fund on June 30.
- *Transportation Funds* are used to account for revenues that are restricted by law to transportation and related public safety programs.
- Other Governmental Cost Funds are used to account for other revenues that are restricted by law for specific purposes.

Budgetary/Legal Basis Fund Groups (cont.)

Nongovernmental Cost Funds

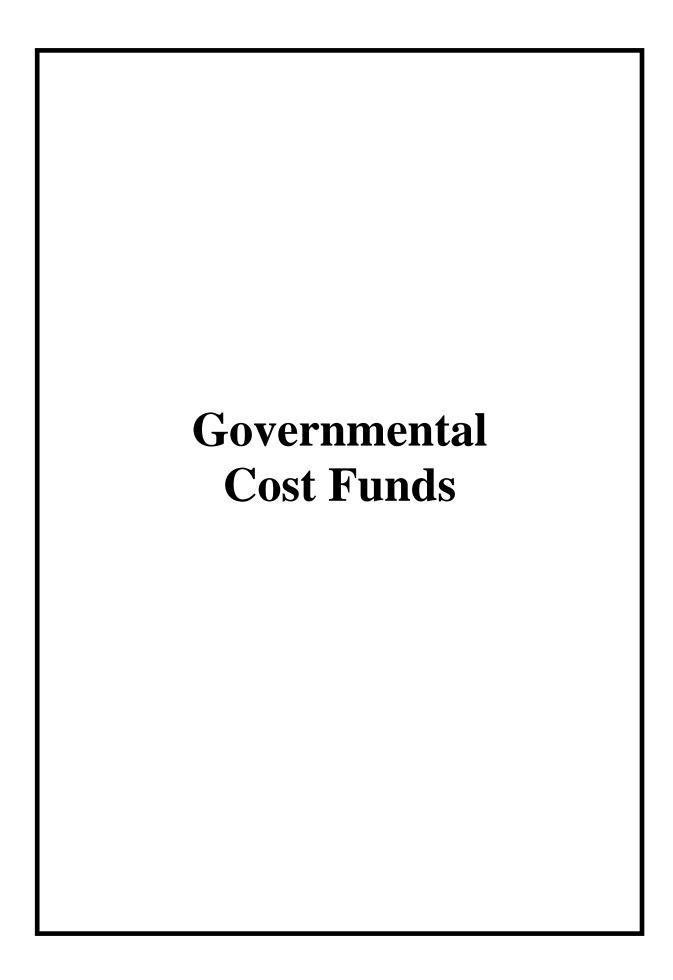

Nongovernmental Cost Funds consist of those funds that derive their revenue from sources other than general and special taxes, licenses, fees, or other state revenue. Expenditures of these funds do not represent a cost of government. There are three major fund classifications under this group: Bond Funds, Trust and Agency Funds – Federal, and Other Nongovernmental Cost Funds. The purpose of each fund classification is described as follows:

Bond Funds are used to record proceeds from the sale of general obligation bonds and expenditures for the acquisition of property and capital outlay. They are also used to record loans to local agencies for the same purposes.

Trust and Agency Funds - Federal are used to account for moneys that are received from the federal government to be expended for specific purposes.

Other Nongovernmental Cost Funds are used to account for the following revenues and services:

- *Public Service Enterprise Funds* are used to account for transactions of state-operated enterprises that render services primarily to the public for a charge.
- Working Capital and Revolving Funds are used to account for the internal service activities rendered by a state agency for other state agencies or local governments.
- Retirement Funds are used to account for contributions received by various retirement systems, the investment of these moneys, retirement allowances, and refunds to members.
- Trust and Agency Funds Other are used to account for moneys and properties that are received and disbursed by the State as trustee or custodian.

Report of Accruals to Controller's Accounts (Report No. 1)

Purpose

The Report of Accruals to Controller's Accounts (Report No. 1) is a computer input document containing accrual transactions for amounts reflected in the agency's records but not posted in the SCO cash basis accounts as of June 30. The accrual amounts are obtained from the Accrual Worksheet (Report No. 2), which provides agencies with a uniform and systematic method of compiling the accruals. Report No. 1 also contains the encumbrances included in the accruals entered on this report.

The amounts on Report No. 1 are combined with the amounts from the SCO cash basis accounts to produce the Budgetary/Legal Basis Annual Report.

Report No. 1 consists of the following forms:

Forms 571A and 571B: Designed to report accruals to asset and liability accounts. Commonly used general ledger account numbers are preprinted.

Form 571 A/B: Designed to report accruals to any asset or liability accounts not preprinted on Forms 571A or 571B.

Form 571C: Designed to report accruals to disbursement, reimbursements, transfer, and receipt accounts. This is a computer-generated form containing preprinted account numbers and titles.

Form 571D: Designed to report accruals to disbursement, reimbursement, transfer, and receipt accounts not preprinted on Form 571C (e.g., accruals to accounts that reverted to the fund balance as of June 30 and were subsequently revived by the SCO, and/or accruals to accounts that were not set up on the SCO records by June 30).

Since Report No. 1 is used as a computer input document by the SCO, it is important for the agency to carefully follow the instructions for this report. Properly completed reports will enable the SCO to accept entries without any further adjustments.

Accrual Worksheet (Report No. 2)

Purpose

The Accrual Worksheet (Report No. 2) provides agencies with a uniform and systematic method of compiling year-end accruals. Accruals consist of the assets, liabilities, deferred credits, and the corresponding receipts and disbursements reflected in the agency's records but not recorded in the SCO cash basis accounts as of June 30.

The amounts in the "Net Accruals Per Agency" column, the column totals for the assets and liabilities, and the amounts in the "Deferred Credits" column are posted to the appropriate accounts on the Report of Accruals to Controller's Accounts (Report No. 1).

"Due To" and "Due From" the same fund should be posted separately and not netted together.

During the processing of Report No. 1, the SCO will refer to Report No. 2 to obtain additional information that may help resolve any discrepancies.

Purpose

The Adjustments to Controller's Accounts (Report No. 3) is a computer input document containing the adjusting entries needed to correct any errors on the SCO cash basis accounts as of June 30. The adjustments on Report No. 3 are for year-end reporting purposes only and are not used to correct the SCO cash basis records.

Report No. 3 consists of the following forms:

Form 576A: Designed to report adjustments to asset and liability accounts. Commonly used accounts are preprinted.

Form 576B: Designed to report adjustments to disbursement, reimbursement, transfer, and receipt accounts. This is a computer-generated form containing preprinted account numbers and titles.

Since Report No. 3 is used as a computer input document by the SCO, it is important for the agency to carefully follow the instructions for this report. Properly completed reports will enable the SCO to accept entries without any further adjustments.

General Instructions

- Submit an original only.
- Prepare a separate report for each fund.
- Enter all amounts in dollars and cents. Do **not** use dollar signs (\$).
- Leave amount column blank for accounts with zero activity.
- Total debits must equal total credits.
- All adjusting entries must be accompanied by an attachment (e.g., transaction request, budget revision, etc.) explaining the reason for the adjustment. Each entry on Report No. 3 must be identified by a number that references an explanation identified by the same number. This number should be placed in the "Account Title" column on Form 576A and to the right of the amount on Form 576B.

Specific Instructions

The instructions below are followed by an illustration of a completed Report No. 3. Each numbered item in the following instructions references a corresponding numbered field in the illustration.

Revisions to Accruals and Adjustments to Controller's Accounts (Report Nos. 1 and 3)

Purpose

This report is a computer input document containing the revisions needed to correct the amounts previously submitted on the Report of Accruals to Controller's Accounts (Report No. 1) and/or the Adjustments to Controller's Accounts (Report No. 3). The amounts entered on this report, combined with the amounts originally submitted on Report Nos. 1 and 3, should bring the SCO balances into agreement with the agency's revised balances. Submitting this report eliminates the need to submit a complete set of revised reports.

This report consists of the following forms:

Form 571E: Designed to report revisions to asset and liability accounts (real accounts).

Form 571F: Designed to report revisions to disbursement, reimbursement, transfer, and receipt accounts (nominal accounts).

Since this report is used as a computer input document by the SCO, it is important for the agency to carefully follow the instructions for this report. Properly completed reports will enable the SCO to accept entries without any further adjustments.

Revisions to year-end reports should be submitted by October 1, 2003. After this date, contact Sandy Rogerson at (916) 322-4671 to receive approval to submit revisions. However, all revisions submitted after the applicable due date specified in the table on page 8 disqualify the fund for the *Award for Achieving Excellence in Financial Reporting*.

Final Statement of Revenue (Report No. 4)

Purpose

The Final Statement of Revenue (Report No. 4) provides agencies with a method of reconciling the total revenue on the agency records with the total revenue on the SCO records as of June 30. This statement should be prepared on Form 575, or an automated version in the same format, and must include the following:

- A listing of the revenue accounts and balances per the agency's records. Only current year revenue accounts (e.g., 0161400 Miscellaneous Revenue) should be listed.
- The total revenue amount per the agency's records. This total should agree with the amount recorded in General Ledger Account No. 8000.
- A reconciliation of the total revenue per the agency's records with the total revenue per the SCO records as of June 30. Revenue accruals reported on the Report of Accruals to Controller's Accounts (Report No. 1) and/or adjustments reported on the Adjustments to Controller's Accounts (Report No. 3) will be reconciling factors.

On the Report No. 4, the total revenue per the SCO records must agree with the total revenue per the agency's records.

The revenues per the agency's records should agree with the revenues reported to the DOF on schedule 10R for inclusion in the Governor's Budget.

During the processing of Report Nos. 1 or 3, the SCO will refer to Report No. 4 to obtain additional information that may help resolve any discrepancies.

Final Reconciliation of Controller's Accounts with Final Budget Report (Report No. 5)

Purpose

The Final Reconciliation of Controller's Accounts with Final Budget Report (Report No. 5) provides agencies with a method of reconciling the agency's appropriation balances with the SCO balances as of June 30. Reconciling factors will include the following:

- Expenditure accruals as reported on the Report of Accruals to Controller's Accounts (Report No. 1).
- Adjustments as reported on the Adjustments to Controller's Accounts (report No. 3).
- Pending budget revisions, allocation orders, and/or executive orders.

After these amounts have been posted by the SCO, the appropriation balances per the SCO records should agree with the appropriation balances per the agency's records. A footnote is required to explain any differences between the agency and SCO records.

The expenditures per the agency's records should agree with the expenditures reported to the DOF on Schedule 10 for inclusion in the Governor's Budget.

Agencies will be provided with a computer-generated form for each appropriation that exists on the SCO records as of June 30. Agencies may create their own Report No. 5 (Form 573) for appropriations that were effective prior to July 1, but were not set up on the SCO records by June 30. The form must be in the same format as the SCO's computer generated forms.

During the processing of Report Nos. 1 and 3, the SCO will refer to Report No. 5 to resolve any discrepancies.

Agency Generated Year-End Reports (Report Nos. 1, 2, 3, 5, and 15)

Agencies may use a personal computer to produce the Report of Accruals to Controller's Accounts (Report No. 1) and the Adjustments to Controller's Accounts (Report No. 3). Since these reports are used as computer input documents by the SCO, reports produced by an agency must be in the same format as the original forms provided by our office. In addition, Form 571C and 576B must include the same account numbers as those preprinted on the forms provided by our office. If an agency must report an accrual to an account that was not preprinted on the original Form 571C and/or 576B, the account must be entered on Form 571D.

Agencies may also use a personal computer to produce the Final Reconciliation of Controller's Accounts with Final Budget Report (Report No. 5, Form 573). A separate form for each appropriation item must be produced in the same format as the original forms provided by our office. In addition, these forms must include any amounts that were preprinted on the original forms. The preprinted amounts must not be altered on the automated forms produced by the agency. If an agency does not agree with a preprinted amount, a footnote should be provided to indicate the amount per the agency's records.

Any agency that would like to use a personal computer to produce Report Nos. 1, 3, and 5 must obtain prior approval from our office. Please send a written request and a sample of your automated report forms by **May 31, 2003**. If you prepare financial reports for more than one agency, you only need to submit one set of reports for review, but list in your cover letter the different agencies that the approval will be covering. After we have reviewed the samples, your agency will be notified as to whether the forms have been approved or require adjustments. You must provide identical account information as indicated on the pre-printed reports you received form the SCO.

Please contact Bob Scott at (916) 324-8359 to arrange for a review of your automated reports.

Agency Generated Year-End Reports (Report Nos. 1, 2, 3, 5, and 15) (cont.)

The Accrual Worksheet (Report No. 2) and the Reconciliation of Agency Accounts with Transactions per State Controller (Report No. 15) may also be produced on a personal computer. An automated version of the Report Nos. 2 and 15 may be submitted without prior approval by our office.

Pre-Closing Trial Balance (Report Nos. 7)

Purpose

The Pre-Closing Trial Balance (Report No. 7) provides the agency's June 30 general ledger account balances for assets, liabilities, fund equity, receipts, and disbursements before nominal accounts have been closed. The June 30 balances reported for each account should include the June 30 cash balance, any current year accruals, and prior year accrual reversals.

Since this report is used as a computer input document by the SCO, it is important for the agency to carefully follow the instructions for this report. Properly completed reports will enable the SCO to accept entries without any further adjustments.

Note: Do not submit a Report of Accruals to Controller's Accounts (Report No. 1) for nongovernmental cost funds.

If revisions are necessary after the initial Pre-Closing Trial Balance (Report No. 7) is submitted, follow the instructions on pages 55 – 58 for Form 571E. Include on Form 571E only the differences between the original Pre-Closing Trial Balance (Report No. 7) account balances and the revised account balances. Debits and Credits must equal. Form 571F is not needed because detail accounts are not used for reporting nongovernmental revenues, expenditures, and transfers. A revised Pre-Closing Trial Balance (Report No. 7) is not required.

During the processing of Report No. 7, the SCO will refer to the supporting documentation provided by Report No. 8 to help resolve any discrepancies.

Purpose

Adjustments to Controller's Accounts (Report No. 3) is a computer input document containing the adjusting entries needed to bring the agency's balances into agreement with the SCO cash basis accounts as of June 30 for the following general ledger accounts:

Account No.	Account Title
1140	Cash in State Treasury
1210	Deposits in Surplus Money Investment Fund
1730.0666001	Prepayments to Service Revolving Fund, Purchasing
1730.0666002	Prepayments to Service Revolving Fund, Printing
2120	Advances to Other Funds

For the above listed general ledger accounts, the total of the amounts entered on this report combined with the amounts on Report No. 7 should agree with the SCO's official account balances as of June 30. Typically, the opposite side of the adjustments to any of these accounts is General Ledger Account No. 1410, Due From Other Funds or 3114, Due to Other Funds. **Do not** make adjusting entries for nominal accounts (receipts and disbursements), since the correct amount is already reflected on the Pre-Closing Trial Balance (Report No. 7).

Adjustments to Controller's Accounts (Report No. 3) consists of Form 576A, which contains preprinted commonly used asset and liability accounts. This report should be completed in the same manner as the Report No. 3 for governmental cost funds. An attachment explaining the reason for the adjustments must be included with this report. When processing the report, the explanation of the adjustments is reviewed to obtain additional information to help resolve discrepancies.

Purpose (cont.)

Since the Adjustments to Controller's Accounts (Report No. 3) is used as a computer input document by the SCO, it is important for the agency to carefully follow the instructions for this report. Properly completed reports will enable the SCO to accept entries without any further adjustments.

Two examples of the proper use of the Adjustments to Controller's Accounts (Report No. 3) for nongovernmental cost funds are given on the following page.

The following are two examples of when the Adjustments to Controller's Accounts (Report No. 3) should be used for nongovernmental cost funds:

Example 1:

The agency's Cash in State Treasury on its Pre-Closing Trial Balance (Report No. 7) as of June 30 is *more* than the SCO's Cash in State Treasury balance at June 30:

Agency June 30 Balance

SCO June 30 Balance

1140 Cash in State Treasury \$5,000.00

1140 Cash in State Treasury \$3,000.00

The following entry should be made on the Adjustments to Controller's Accounts (Report No. 3), to reflect the official Cash in State Treasury balance at June 30 per the SCO's records:

The combination of the agency's Pre-Closing Trial Balance (Report No. 7) and the Adjustments to Controller's Accounts (Report No. 3) for Cash in State Treasury should equal the SCO's balance as of June 30, as shown below:

Example 2:

The agency's Cash in State Treasury on its Pre-Closing Trial Balance (Report No. 7) as of June 30 is *less* than the SCO's Cash in State Treasury balance at June 30:

Agency June 30 Balance

SCO June 30 Balance

1140 Cash in State Treasury \$4,000.00

1140 Cash in State Treasury \$7,000.00

The following entry should be made on the Adjustments to Controller's Accounts (Report No. 3), to reflect the official Cash in State Treasury balance at June 30 per the SCO's records:

The combination of the agency's Pre-Closing Trial Balance (Report No. 7) and the Adjustments to Controller's Accounts (Report No. 3) for Cash in State Treasury should equal the SCO's balance as of June 30, as shown below:

Agency Report No. 7		Agency Report No. 3		SCO June 30 Balance
	+		=	
\$4.000.00		\$3,000.00		\$7,000.00

Analysis of Change in Fund Balance (Report No. 9)

Purpose

The Analysis of Change in Fund Balance (Report No. 9), also known as the Statement of Operations, provides the beginning fund balance for the fiscal year plus any additions (e.g., revenues), less any deductions (e.g., expenditures) to determine the fiscal year's ending fund balance.

On Report No. 9, the beginning fund balance must equal the ending fund balance from the previous year's Report No. 9. If an agency made entries that changed the previous year's ending fund balance reported to the SCO, the beginning fund balance on the Report No. 9 must be footnoted to explain the difference.

During the processing of the Pre-Closing Trial Balance (Report No. 7), the SCO will refer to Report No. 9 to obtain additional information that may help resolve any discrepancies.

General Obligation Bond Funds

Purpose

Bond Funds are used to record the proceeds from the sale of general obligation bonds and the expenditure for acquisition of property, capital outlay, or loans to local agencies for the same purpose.

The year-end reports required for general obligation bond funds are the same as those required for governmental cost funds. Refer to the Governmental Cost Funds section for instructions.

Specific Instructions

- Provide the required year-end reports for each subfund.
- Accrue SMIF Interest as a debit to General Ledger Account No. 1410.0681 and a credit to receipt account 0250300.
- Do not accrue any intrafund transfers, i.e., a debit to 1410 and a credit to receipt account 03786XXX on Report No. 1.
- The Pooled Money Investment Account (PMIA) loan accrued letter is mailed out by the State Controller's Office no later than the end of July. Per the data provided in the letter, accrue the PMIA interest expense pertaining to the loan. Accrue the PMIA interest expense as a debit to the appropriate disbursement account and a credit to General Ledger Account No. 3114.0942, Due to Special Deposit Fund.

If you have any question regarding the PMIA letter, please call Sandy Rogerson at (916) 322-4671.

Special Deposit Fund

Purpose

The Special Deposit Fund is used as a depository for moneys collected by the State, in instances where there has been no fund created for the moneys received. Moneys remaining unclaimed and held by an agency for which the claimant cannot be found are also deposited in the fund and remain for two years. If not claimed within the two-year period, the money reverts to the General Fund, except for unclaimed warrants deposited, which will revert to the fund against which the warrant was drawn.

The year-end reports required for the Special Deposit Fund are the following:

- Report No. 3 Adjustments to Controller's Accounts
- Report No. 7 Pre-Closing Trial Balance
- Report No. 8 Post-Closing Trial Balance
- Report No. 9 Analysis of Change in Fund Balance
- Report No. 20 Statement of Financial Condition

Special Deposit Fund (cont.)

General Instructions

- The filing date for the Special Deposit Fund year-end financial reports is August 20, 2003.
- Prepare separate year-end reports for each subfund number. Year-end reports are required even if the account has a zero fund balance, but had a beginning fund balance or activity during the fiscal year.
- Cash in State Treasury must equal the Controller's Fund Reconciliation Report of General Ledger Account No. 1140. If an adjustment is necessary, please provide a descriptive footnote at the bottom of the Adjustments to Controller's Accounts (Report No. 3).
- June 30 accounts not yet approved by the Department of Finance are considered Non-Treasury Trust (NTT) Funds until an agency has approval.

Non-Treasury Trust Fund (NTT)

Purpose

The Non-Treasury Trust (NTT) Fund consists of money or property, in the custody of a state agency, that is not required to be deposited in a fund in the State Treasury. Cash receipts are accounted for in General Ledger Account No. 1120, Agency Trust Fund Cash. Securities may be held by the agency or transmitted to the State Treasurer for safekeeping and accounted for in General Ledger Account No. 2720, Securities and Other Property Held in Trust. *Note*: Trust cash in an agency account pending remittance to a fund in the State Treasury is recorded in General Ledger Account No. 1110, General Cash.

The following year-end reports should be submitted for NTT funds. These are the same reports submitted for nongovernmental cost funds.

- Report No. 7 Pre-Closing Trial Balance
- Report No. 8 Post-Closing Trial Balance
- Report No. 9 Analysis of Change in Fund Balance

Non-Treasury Trust Fund (NTT) (cont.)

General Instructions

The instructions below are followed by illustrations of completed Report Nos. 7, 8, and 9. Included in the year-end reports should be the type of trust fund, a contact person, and a phone number. A list of current agencies with NTT funds is shown on the pages following the sample reports. Refer to SAM Section 7620 for more information about General Ledger Account No. 1120, Agency Trust Fund Cash.

- The year-end reports required to be submitted for a NTT Fund must be submitted under Fund No. 0990, Fiduciary Funds Outside the Centralized Treasury System.

Statement of Changes in General Fixed Assets (Report No. 18)

Purpose

The Statement of Changes in General Fixed Assets (Report No. 18) provides the SCO with information regarding the acquisition and disposition of fixed assets during the fiscal year. This information is compiled for the reporting of capital assets in the *Comprehensive Annual Financial Report* (CAFR), prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

In order to facilitate this requirement of the CAFR, a Report No. 18 <u>must be provided for each fund.</u>

In order for the state to comply with GAAP, state agencies need to report the following information for "Buildings" and "Improvements Other than Buildings."

General Instructions

- A separate Report No. 18 must be prepared for each fund within your agency, except for Proprietary and Fiduciary Funds. Fixed assets of Proprietary and Fiduciary funds must be included in the fund statements. If there are no fixed assets for that fund, please note on the Certification Letter that there are no general fixed assets in the fund.
- Identify each Report No. 18 with the fund name, fund number, agency name, and agency number.
- Beginning balances must agree with the prior year's ending balances. If an adjustment to the beginning balance is made, please provide a footnote at the bottom of Report No. 18 that includes a description and the amount of the adjustment.

Statement of Changes in General Fixed Assets (Report No. 18) (cont.)

General Instructions (cont.)

- Based on a survey of State agencies, certain long-lived assets that are normally stationary in nature and can be preserved for a greater number of years than most capital assets may not have been included as fixed assets on the Statement of Changes in Fixed Assets (Report No. 18) and the Statement of General Fixed Assets (Report No. 19). These assets (with the exception of the State Highway System) should be included in the fixed assets on the Report Nos. 18 and 19 at historical cost.
- If there are building and other improvement deductions equal to or greater than \$1 million, the following information for each building or other improvement deduction should be provided in a footnote on the Report No. 18:
 - The nature of the deduction, i.e., sale, demolition, transfer, adjustment or other.
 - The date acquired and acquisition cost for each deduction reporting a sale, demolition, or transfer.
 - The fund name and number and the agency name and a number to which the building or other structure was transferred, if transferred.
 - Include an explanation for the deduction, if it represents an "Adjustment" or "Other Deduction."

If you have any questions regarding this report, please contact Joe Chang at (916) 324-9789.
